

The image shows a template for an 8.5ft tail feather flag. It features a vertical rectangular shape with rounded top and bottom corners. Three distinct lines define the layout: a magenta line for the bleed area, a black line for the finished size, and a blue line for the safe area. The safe area is the innermost, followed by the finished size, and the bleed area is the outermost. The top and bottom corners are rounded, with the safe area and finished size lines following the curve, while the bleed line is straight. A dashed line is also visible, slightly outside the bleed line.

8.5ft Tail Feather Flag Template for 9.5ft Flag Pole Kit

← **Bleed**

Take all flag art to the edge of this area.

← **Finished Size**

← **Safe Area**

Keep crucial graphics and text within this area.

How to use this template:

- DELETE the "Instructions" layer. **If you do not delete this layer, it will print over your artwork.**
- Place graphics on the "Art" layer and extend all art to the **bleed**.
